REPORTERS

Qualified sources **when** you need them!

Tap into the largest source repository in the world with over 80,000 mainstreet and expert sources who will respond directly to your query on your terms. No more flipping through your rolodex; searching out-of-date databases, or being bothered by unsolicited sources with off-topic pitches. Submit your query and let HARO deliver the perfect sources right to your inbox.

SUBMIT QUERIES

SOURCES

No such thing as **free** PR?

From The New York Times, to ABC News, to HuffingtonPost.com and everyone in between, nearly 30,000 members of the media have quoted HARO sources in their stories. Everyone's an expert at something. Sharing your expertise may land you that big media opportunity you've been looking for.

Real World: What Time Is It In Space? 2010-08-05 12:50:30

The International Space Station, or ISS, orbits Earth once every 90 minutes. Learn how astronauts keep track of what time it is while on-board the ISS using Universal Time. Learn how students can talk to astronauts on the ISS using amateur radio.

Robotics

Overview

Welcome to the NASA Education Robotics Web site.

Innovation, creativity, problem solving -- the world of robotics at NASA is all of these things. Spend some time on this site to see if robotics might be in your future.

Things you can do on this site:

- Answer the question: What Is Robotics?
- Practice your programming skills with the interactive robotic activity.
- Watch and download video and multimedia features about robotics.
- Follow a timeline tracing the history of robotics.
- Check out lesson plans for your classroom.
- Stay up-to-date with information about NASA-supported robotics competitions.
- Visit the Robotics Image Gallery.
- Explore other worlds with NASA through robotic spacecraft discoveries.
- Read about scientists and engineers who design and test robots.
- Browse NASA Web sites for information about robotics.

High School Aerospace Scholars

HAS is an interactive online learning experience for high school juniors in Texas. Selected students are nominated by their State Legislator, have an interest in math, science, engineering or computer science and are encouraged to pursue high tech careers. Participation is highlighted by a six-day experience at the Johnson Space Center where students have the opportunity to interact with NASA engineers and scientists. Teachers from across Texas will also have the opportunity to serve as counselors during the summer.

[Students Apply for High School Aerospace Scholars](#)

The deadline to apply is Midnight Monday, November 15, 2010.
